(C) Indicates someone who has contributed to the information on this chart.

This information was updated in June-October of 2018 by his second wife, Fanny Baker Edith Mary Ames Mitchell (see the green diamond (C) near the top of the chart) with the help of Mary Webb, Leila Jackson Poulada, and Leila's sister Kitty Jackson Wise.

The information for the rest of Knox's descendants was first compiled in 2006 by Frederick W. Bentley for a family tree prepared for the Knox Memorial in 1961. Mr. Bentley sourced the records of Henry Knox's great-grandson Paul Henry Thacher Fowler of Brown University who was a Knox descendant as well as the seated Knox descendant in the City of Cincinnati from 1926 to 1948 (see the green diamond (C) near the bottom of the chart) with the help of Mary Webb, Leila Jackson Poulada, and Leila's sister Kitty Jackson Wise.

After personally contacting Mr. Bentley's data in October of 2018, Mary Ames Mitchell updated Mr. Bentley's data in October of 2018.
